Cromwell

Kealia Large Chandelier

The Kealia Large Chandelier drips with hand-beaded natural cowrie shells and small pieces of coconut shells that flow down from an undulant floral-shaped frame to make it a biophilic design. The natural materials form a veil-like shade that surrounds 10 lights, which are layered to create a patterned illumination. The curving frame is made of thin ribs of wrought iron in a coco cream finish to complement the earthy tones of the natural materials. The chandelier, which is dimmable, measures 48 inches tall and 36 inches in diameter
