# Cromwell

## Denison Rectangular Black Outdoor Lantern

The Denison Rectangular Black Outdoor Lantern has a wrought-iron frame in a black powder-coated finish. This classic lantern shape has two lights surrounded by glass globes to create a soft glow. The black finish adds subtle texture to the surface of the metal and the connecting rods that suspend it are architectural accents. The Denison is wet-location tested so it is ideal for lighting patios and porches, and this rectangular lantern is a terrific choice for hanging above long outdoor dining tables
