Cromwell

Pointe Dining Arm Chair

The Pointe Dining Arm Chair with a natural teak frame and wicker seat in a raffia finish is built for worry-free enjoyment given the echo-friendly and weather-resistant attributes of marine-grade teak and UV-resistant resin wicker from which it is made. Inspired by mid-century modern design, the outdoor dining chair has solid teak frames with mortise and tenon joinery. The subtle curves and shaping on the arms set the patio dining chair apart. The cushions are available in Dream only.
