Monterey Slate 3 Seat Sofa

The frame of the Monterey Three-Seat Sofa is made of teak in a slate grey finish that deepens the wood's lustre. The seat depth and the ample cushions on the outdoor sofa are generously sized, which will create a magnetic pull during those moments when a good book or naptime beckons. The tried-and-true material of teak has been the gold standard for outdoor furniture for eons, though it is the rare patio sofa made of the wood that is as beautifully contemporary in its lines.
