Fisher Aged Stone Grey Dining Table

The Fisher Dining Table pairs curves and angles for an artful outdoor dining experience. Fashioned to give the appearance of cast stone, the table is a faux stone construction that enables the piece to be easily repositioned. Sturdy enough to withstand natural elements, the table features a cone-shape base textured with a vertical stria design. The 36" round tabletop offers lots of space for dining—outdoors or inside. Natural Stonecast finish.
