Gannet Aged Stone Grey Side Table

A sculpted design reveals deep concave fluting surrounding the graceful hourglass base of the Gannet Side Table. Crafted from faux stone, this multifunctional side table is lightweight enough to move easily but gives the impression of a solid cast stone piece. The 18" smooth, circular top offers plenty of space, and the neutral colour complements any setting. Works well alongside a sofa, between two chairs, or used in pairs as a coffee table—indoors or out. Natural Stonecast finish.
