Gavin Cocktail Table

Lillian August's Gavin Cocktail Table shows the monumental square scale of classic Parson's style silhouette was Inspired by a vintage 1970's Milo Baughman piece we bought many years ago. The piece is clad in an embossed faux shagreen, hand finished in a neutral taupe that replicates the original. A stylish addition to any space, the Gavin is a striking centerpiece in a modern living room. It includes a large wood line drawer for ample storage.
