Cromwell

Iron and Stone Oval Side Table

Cool, creamy white Udaipur marble and modern, industrial iron come together in a display of strength and beauty. We have taken iron and gave it a unique hammered texture. A luxe gold painted finish elevates the look and transforms it into something impeccably dynamic! The contrasting light marble with natural veining gives an airy feel. With an abundance of surface space, this table is not only gorgeous, but highly functional as well. Sophisticated and chic, the look is truly spectacular. The table's commanding presence makes a lovely focus piece in your home!
