Cromwell

Donovan Media Console

The sweeping concave design of the 100-inch Donovan Media Console makes a strong contemporary statement. Crafted from Eucalyptus veneers with contrast borders in a soft dove Gray finish, the design features striking custom door pulls in brushed nickel. Behind the six doors are six adjustable shelves and three storage drawers. The left and right facing drawers have removable felt liners and the centre drawer is felt lined with partitions. This design is also available in a 68-inch version with four doors.
