Enchantment Hand Painted Double Pedestal Desk

A study in the art of hand-painted design, the Enchantment desk features a colourful floral and dragonfly motif over a rich matte black finish. The perimeter of each panel is trimmed in gold striping. Each desk is unique due to the intricacy of the hand painting. The top features an inset black leather writing surface. On the left are two full-extension self-closing drawers and one letter/legal file drawer. In the centre is a full-extension self-closing drawer. On the right are four full-extension self-closing drawers.
