

Cromwell

Sunset Key Tasman Chair

The Tasman chair has been a best seller in our line for years due to the blending of wooden and upholstered elements, and of course great comfort. The gentle curve of the frame from the base to the back draws the eye to the distinctive angle of the back leg. This combination is a married cover pairing the overall textural base fabric with a distinctive contrasting geometric on the seat and back cushion and the complementary Movida finish. Although this silhouette is available as shown, you may customize when ordering 1700-11. Shown here in 8102-11 Married Cover with Inside Back, Back and Seat Cushion 5648-51 Gr 5 and Inside Back, Back and Seat Cushion Welt 2230-15 Gr 3. Movida finish frame
