Cromwell

Greystone Media Cabinet

The sliding bypass doors on the Greystone media centre allow you to conceal all of the interior compartments, giving it the look of a decorative credenza. A vertical pattern of the contemporary fretwork design is repeated on each of the sliding doors. The left compartment has one storage drawer and one letter/legal file drawer. The middle section has three adjustable shelves. The right compartment has one full-extension storage drawer with two adjustable shelves beneath. The file and storage capabilities make this media console as appropriate for the home office space as it is the media room.
