South Beach Rectangular Cocktail Table

The geometry of the collection design is illustrated in the base and top of the cocktail table, including the diagonal pattern in the teak top. The indigenous colour of teak is light brown.

With age, the patina turns to an elegant silver tone. The custom dark graphite finish in South Beach is designed to blend with either colour tone beautifully. If you choose to oil the teak, it will retain its original colour. If you prefer for it to age naturally, the silver tone offers an extremely sophisticated look.
