

Cromwell

Morgan Sofa

The Morgan series is one of the most distinctively tailored styles in the assortment. Its clean architectural lines are punctuated by half-inch diameter spaced nail head trim on the arms, base and back. Note the glimpse of nail head trim above the tops of the back cushions, offering a strong termination point for the eye. The tapered block feet offer a substantial foundation, available in over 40 custom finishes. This style is also offered as a custom sectional, in a variety of configurations.
