

Cromwell

Bayville Chair

Without question, you can anticipate comfort from the blend down button tufted back cushion and ultra down seat cushion. Attention to detail is noticeable with the nail head trim at the arm panels and around the base, standard in pewter finish. The tapered legs in Millstone complement the Oyster Bay case goods, but you are welcome to customize in any fabric and finish. In addition, this chair is available as LL7935-11 in custom leather, both pair well with matching ottomans. Shown here in 6358-31 Grade 6 fabric with old brass studs
