Talia Large Chandelier in Gild with clear swirl glass

Artisanal glass elevates the Talia series by Julie Neill for a new take on the simple glass globe light fixture. Light shimmers through multiple swirled glass orbs attached to metal baskets, creating a whimsical flourish. Available in a range of sizes and configurations, the Talia series adds a dynamic mix of sparkling glass, rounded forms, and bright metals to any interior. Choose a chandelier for entryways and dining areas, flush-mounts or wall sconces for living spaces or bedrooms, and add a playful, feminine touch to any space.
